

Trusts & Foundations Specialist

Join this high profile not-for-profit as a key member of their highly regarded Fundraising & Development team. For the next 12 months, you will sustain meaningful relationships with Trusts and Foundations to secure and maximise financial support for the organisation's groundbreaking projects.

Reporting to the General Manager - Fundraising & Development, you will continue to build the pipeline of funding from T&F, write quality submissions, and co-ordinate the acquittal process.

You will work in collaboration with diverse stakeholders including scientists, researchers and health professionals to identify suitable projects for philanthropic support. You will engage and maintain relationships with public, private and corporate trusts and foundations, and identify new funding opportunities for this important revenue stream.

Your ability to write and communicate effectively, prioritise, research, plan and evaluate will be vital to your success.

If you're an enthusiastic T&F specialist seeking a rewarding and challenging role with autonomy, flexibility and a competitive salary package, please forward your written application to cv@dakinmayers.com.au. Alternatively contact Michelle Varcoe or Philip Mayers for a confidential discussion.
