

Business Development Manager

This is an exciting opportunity to take an important leadership role in the peak body representing the public healthcare sector in Victoria. After major reforms four years ago, VHA has re-established itself as a prominent player in public health and is now ideally positioned to present itself to the broader market as a leader in health service governance and development.

Reporting to the CEO, and managing a small team, you will develop an interface between VHA membership and business partners, build relationships, develop new programs and generally add value.

You will need appropriate skills to manage responsibilities that include promoting and developing membership, identifying potential corporate partners through sponsorship and joint business activities, overseeing administration of agreements and strengthening the internal capacity of the VHA team.

Please email your application. Contact Philip Mayers or Peter Dakin for further information.
